Wood Agent Admits Expenditures Will Reach \$58,000 With Part to be Paid

Investigation Allowed to Wait While Senators Debate On Adjournment.

Pomerene Quizzes W. C. Burrill On \$40,000 Contribution By Burrill.

(By Associated Press.)

Washington, June 3.—Senate investigation into pre-convention expenditures was interrupted today while members of the committee participated in the debate on the Senate floor on the resolution providing for adjournment of Congress Saturday.

Before the interruption the committee reverted to the financing of Major General Wood's campaign, calling W. C. Burrill, assistant to Col. William Proctor, of Cincinnati, national chairman of the Wood campaign, and C. H. Duell, of New York, who said he was associated with the Wood campaign until the change in management when John T. King quit as manager.

Mr. Burrill said \$40,000 had been spent in Indiana but explained expenditures including unpaid bills would bring the Indiana total to \$58,000.

The names of Wm. Wrigley, Jr., and C. D. Shaffer, of Chicago, previously mentioned as heavy contributors to the Wood fund, were read off the receipt book.

Senator Pomerene, democrat, of Ohio, referred to payment of \$40,000 to Burrill himself which was shown by the books. The witness said they were paid to the Ohio committee.

"This was accounted for to the committee by A. A. Sprague, treasurer of the national committee when he was here last week," Mr. Burrill said.

(By Associated Press.)

Chicago, June 3.—Virgin G. Hinshaw, chairman of the prohibition national committee, this morning drew up two questions to present to the republican presidential candidates and said he would immediately go to their headquarters to ask an answer in person from each candidate.

The questions were: "Do you believe in the 18th amendment as interpreted by the Volstead act which act, as you understand, interprets intoxicating liquor to be anything containing more than one-half of one percent of alcohol?"

"Do you favor your party adopting a plank in its national platform endorsing the 18th amendment and its enforcement as interpreted by the Volstead act or some measure equally effective?"

Mr. Hinshaw declared he intended to tell the whole country what answer each candidate made to these questions.

W. J. Bryan will arrive here tomorrow, Mr. Hinshaw said, and the prohibition chairman will work with him to get a platform endorsement of the prohibition amendment as interpreted by the Volstead act.

All Candidates Except Hoover Will Attend National Convention of Republicans

Nearly All Unpledged Delegates Claimed By At Least Three Candidates.

Rivals Now Marshaling Their Forces For The Battle Next Week.

(By Associated Press.)

Chicago, June 3.—Two republican presidential candidates, Senator Johnson of California, and Senator Harding of Ohio, arrived in Chicago today, and their coming marks the beginning of the active days of the pre-convention period.

Five days remain before the republican party assembles to pick candidates. Those five days are expected to contain crowded hours of conferences and last minute alignments of forces.

Every one of the candidates except Herbert Hoover is expected here at some time. The advance guard of the delegates are arriving, and by Sunday they will be coming in a steady stream.

The majority of them are claimed by no less than three campaign managers, so they are technically unpledged. Some of the chairmen of the incoming delegations are announcing their preferences in prepared statements, which breathe confidence of success.

The committee today still had before it awaiting decision the Florida and California cases and the cases of the eight district delegates from Mississippi.

From those cases, it was waiting to pass on to the contests from North Carolina, Oklahoma, South Carolina, Tennessee, Texas and Virginia.

The indications are that the time consuming contests have been passed, and that with the Georgia and Florida cases out of the way the remainder will be more quickly disposed of.

## SEVENTY PUPILS GET PROMOTION TO HIGH SCHOOL

Eighth Graders Present Program of Unusual Nature When High School Commencement is Rivalled.

High School Auditorium Is Packed For Annual Exercises And Presentation of Diplomas.

Hardly less impressive than the annual high school commencement, promotion exercises for the eighth grades of the public schools of this city were held in Washington high school auditorium Wednesday evening for the seventy students who received diplomas as a reward of faithful study during the past nine years and with the diplomas received the right to enter high school.

The program, entirely out of the ordinary, had been carefully planned by the teachers, Miss Ellen Montgomery and Mrs. J. T. Tuttle, with the musical part of the entertainment under the direction of Miss Louise Habegger, instructor in music.

With Virginia Elties and Mildred Todhunter at the piano playing a march the eight grades formed a procession and moved with stately tread down the right side of the auditorium and onto the platform where the entire class was seated. The scene on the stage was enhanced by the costumes of the girls, each one wearing a middy suit with scarf.

Invocation was pronounced by Rev. Alexander, in the absence of Rev. Groves who had been assigned the duty, and William McClain, superintendent of the city schools took charge of the program.

Each of the seventy graduates was in turn called to give a short verse or motto and these elected applause because of the manner of expression and sentiment shown in the recitations. At opportune moments in the program the musical talent of the class was brought to the front.

The musical selections were splendidly rendered and were as follows:

Piano Duet—March Grotesque...

.....Sinding

Mildred Todhunter, Mary Jane McCoy

To the Hermit Thrush.....Tosti

Voices in Chorus with

Evelyn Soddors at the Piano

Violin Solo.....Kern

Gwendolyn Wolfe

## WEEKLY WEATHER AND CROP REPORT FOR PAST WEEK

There was an abundance of sunshine and generally seasonably temperatures throughout the week, which made conditions very favorable for field work and rapid plant growth. Towards the end of the week, rain was needed, especially for meadows and pastures, but the showers of May 21 and June 1 have remedied this situation.

Winter wheat is showing considerable improvement and is now beginning to head out. Reporters have noted very little spring damage from Hessian fly.

The oat crop is making good growth condition being reported as from fair to good. Barley is also doing well.

From 75 per cent to 80 per cent of the corn has been planted and probably 50 per cent is now up and is showing a good stand. Cultivation has already commenced. Rye is heading out rapidly, the condition of the crop being reported as good.

Hay crops have made rather slow growth throughout the week, warm rains being needed to stimulate growth. The same is true of pastures. The fruit prospects are still reported as good, although in some sections rather a heavy drop is reported. It is generally believed that the apple crop will be the best that the State has had for sometime.

Reports indicate that the acreage of potatoes will be somewhat reduced. The early planted corn is up and the condition is reported as good.

Tobacco plants in the beds have been some what backward, but are reported to be in good condition and are now making rapid progress.

The condition of sugar beets is reported as excellent.

## MAYBE THERE WAS SOMETHING TO TALK FRAZEE SOLD RUTH "TO SAVE THE CLUB"

Manager Barrow of the Red Sox (below), Tim Hendryx and Mike Menoskey in batting pose.

When Boss Frazee of the Red Sox knocked the wind out of the baseball world by selling Babe Ruth to the Yankees, one of the reasons he gave was that the sale was necessary to preserve the rest of the club. He argued that the club, with Ruth on it, had come under the stigma of the "one man club" name, the one man being

Ruth. Dissension was rife, he admitted. The sale, he believed, would enable him to bring back harmony and strengthen the general playing of the team. Baseball fans—and writers—figured the Sox, losing Mays and Ruth, were shot to date doesn't indicate that. Rather, the remarkable showing the Red Sox have made suggests that perhaps Frazee and Manager Ed Barrow had the right dope.

## NO REASON FOR IT

When Washington C. H. Citizens  
Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and danger of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Washington C. H. citizen says:

Mrs. C. L. Peart, 637 S. North St., says: "A number of years ago I had an attack of kidney trouble. When I tried to walk upstairs, I was taken with a catch in my back and I couldn't straighten. I suffered with intense pains through my back and kidneys for several days and my kidneys caused me much annoyance. A neighbor advised me to use Doan's Kidney Pills. After I had taken a box, I was entirely cured. I have never had any return of the trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Peart had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## Forming Public Opinion

As the Senate sub-committee's investigation into the campaign expenditures of the several candidates for presidential nominations continues the unpleasant disclosures multiply.

No matter what the purpose of the promoters of the Senatorial inquisition now in progress, it seems apparent that the circle of the inquiry's scope has widened possibly beyond their intent and the people are being advised of the existence of conditions which are not helpful to the cause of the candidates involved.

When the people learn, as they are, by the reports of the committee's proceedings, that individuals and interests are expending hundreds of thousands of dollars to procure the nomination of certain favored individual they are not slow to realize the obligation under which those candidates are placed and the bond which will hold them to grant official favor in return if elected.

Whether the disclosures of prodigal expenditures being made by and on behalf of the candidates will have any control over the action of the political leaders is questionable. It is not news to them. To the masses of the people, however, the disclosures are a revelation and an unpleasant one too.

Public sentiment is opposed to the nomination of any man for president, at this time especially, who is under financial obligation to any individual or interest demanding official favor.

The great majority of the uninstructed delegates more closely in touch with the voters cannot, it would seem, cast their votes at the conventions oblivious of the will of the people.

## Mandatory Refused

By a vote of nearly two to one—52 to 23 to be exact—the Senate rejected President Wilson's appeal and declined to assume the mandatory over Armenia.

Public sentiment throughout the nation abundantly supports the action of the Senate. To assume the mandatory of Armenia at this time is unthinkable. To seriously consider doing so is to seriously consider placing this nation in a position where practical help to Armenia would be exceedingly improbable, if not impossible and disagreeable and costly entanglement in European affairs almost certain to result.

Joining with the united republican opposition thirteen democratic senators deserted the standard of President Wilson.

That action by the democratic senators may be the forerunner of further disagreements in the ranks of President Wilson's party which may lead to the adoption, at San Francisco, of a party platform not entirely in accord with the desire of the chief executive. It is an indication too that opposition is not going to permit itself to be stifled by party precedent for party gain.

## The Supreme Court Ruling

The Supreme Court of the United States, on Tuesday, held that the action of the Ohio General Assembly ratifying the prohibition and women's suffrage amendments to the federal constitution, could not be submitted to the voters of the state in a referendum election.

In effect that means that the referendum provisions written into our state constitution by the constitutional convention of 1912, is inoperative so far as proposals to amend the federal constitution are concerned.

It is difficult now, in the light of the decision Tuesday, to understand just how there could have been any serious contrary contention. The federal constitution provides the procedure necessary to amend its provisions.

In adopting the federal constitution the states granted that power to the federal government and having made the specific grant it does not rest with any state now, without federal sanction, to abridge that grant.

Both the prohibition amendment and the women's suffrage amendment having received the approval of Ohio, as provided in the federal constitution, are now, so far as this state is concerned, a part of the fundamental law of the land.

## POETRY FOR TODAY

### SUCCESS

"What is Success?" I asked  
The artist, as he sat before  
An easel on a barren floor.  
"It is a dream they've dreamed of old;  
It is a fairy story told  
Of rainbows, and a pot of gold  
Awaiting at the end."

"What is Success?" I asked  
The busy man who never smiled  
At all the riches 'round him piled.  
"It is the building of a tower;  
It is sometimes a single hour  
When a man is conscious of the power  
He holds o'er other men."

"What is Success?" I asked  
The man whose entire life had been  
A service to his friends and kin.  
"It is to lessen grief and stress;  
It is perhaps just kindness;  
It's love, and human things, I guess,  
That somehow bring Success."

Soybeans Don't Improve  
Soil Unless Inoculated

Soybeans can be satisfactorily raised without inoculating the seed, but no nitrogen-fixing nodules are produced on the roots unless (1) the seed is inoculated, (2) inoculated beans have been previously grown on the land, or (3) soil on which soybeans have been grown is applied to the new field.

A circular containing detailed information concerning the inoculation of soybeans as well as their general culture has just been issued by the Agricultural College Extension Service.

## INSECT PESTS ARE ROUTED BY KILLO

Red ants flee from Killo, the great disinfectant. It eradicates any kind of insect pest. Moths will not affect garments where a little of this powder is sprinkled through closets. Water bugs, roaches and flies avoid it, while a little dust on chickens quickly kills off the lice.

In the sickroom it deodorizes and freshens the air, kills germs and removes infection. Damp, moldy cellars are purified and made wholesome by Killo.

Lawns that are being injured by ants and other insects may be saved, and plants are protected by the use of Killo according to directions with the package. Killo is especially fine for bugs on cucumbers and melon vines. Sprinkle the vine with a solution of Killo and water and scratch dry Killo into the ground around the vines. Grocers and druggists supply it at 25c.

## RANDOM NOTES

### SOCIAL : PERSONAL MENTION : CLUBS

The marriage of Prof. Davis Edwards and Miss Evangeline Huntley will take place in Oberlin on Saturday, June the nineteenth. It will be a quiet affair, confined to the immediate families and close friends.

The bride-groom's parents Mr. and Mrs. H. E. Edwards, expect to go from here and his brother, William Henry Edwards, directly from Chicago University.

The Guild Kensington of the First Presbyterian church was a very enjoyable affair entertained by Mrs. Frank S. Jackson, Wednesday afternoon with the assisting hostesses Mesdames Albert Barney, W. H. Lipsett, John Bryant, W. M. Mitchell, W. B. Hershey, Miss Emma Jackson.

The spacious home was beautiful with a profusion of summer blossoms, pink and white peonies predominating. A dainty repast was served.

The young women of the Philathea Class, with their teacher, Miss Emma Jackson, had a very jolly picnic supper in the basement of the First Presbyterian Church.

Peonies and syringas were prettily used in decoration and the picnic menu was most appetizing.

The usual business session was conducted and the reading of letters from former class members much enjoyed.

The following account from a Granville paper, of the wedding of Rev. David Barre, former rector of St. Andrews Church of this city, is of decided local interest.

Wednesday morning, June 2, at 8 o'clock in St. Luke's Episcopal church, Granville, occurred the marriage of Helen, eldest daughter of Mr. and Mrs. Jere Ackley, and granddaughter of Mrs. Susan Ackley, to Rev. David Barre, of Akron.

Preceding the ceremony Mrs. Mabel Ashton skillfully rendered a program of nuptial music. The bride entering on the arm of her father proceeded down the east aisle to the strains of Lohengrin's wedding march, was met at the altar by the groom and his college friend Rev. Charles Hull, assistant rector of the Church of Our Saviour, in Akron, who impressively read the solemn ring services. The church was artistically decorated with fragrant June blossoms and a coterie of Miss Ackley's intimate friends witnessed the beautiful ceremony.

A wedding breakfast was served to the immediate family at the Ackley home on College avenue. Miss Ackley has been the efficient bookkeeper for the Granville Fuel and Light company. Mr. Barre is a graduate of Kentucky University, Lexington, and a member of Kappa Alpha (southern) fraternity, and both of the young people have the best wishes of their large circle of friends. For several years Mr. Barre was deacon in charge of St. Luke's church, and the wedding is a culmination of a romance begun at this time when Miss Ackley was organist of the church.

The bride was becomingly gowned in dark blue beaded georgette with large picture hat of rose and blue, her corsage was of roses and sweet peas. The entire affair was charming in its simplicity and gracious informality.

Mr. and Mrs. Barre left for a motor trip through the southern part of the

state before going to their home in Akron where after July 15 they will be at home to their friends at 480 Rhodes avenue.

The out of town guests were: Mrs. Eugenia Barre, mother of the groom, Columbus; Mrs. R. C. Hunt, Miss Lou Dunlap and Miss Anne Saxton, Washington C. H.; Mrs. Anna Pond, Evanson; Miss Helen D. Phelps, Defiance.

Mr. and Mrs. Glenn Davis (Veral Yahn) extended the cordial hospitality of their home on the Wilmington pike to Mrs. Scott Hopkins' Sunday School class of Grace M. E. Church, Wednesday evening. Mrs. Davis is a member of the class.

In a lively "penny contest" five young women tied for the prize, Mrs. Harry Crone (Esther Scott) winning a box of candy, and the booby prize a small box of candy hearts awarded to Miss Margaret Lane.

Beautiful flowers from the Davis' gardens adorned the rooms and a delicious picnic supper to which the members had contributed, was served.

Mr. and Mrs. Harry Crone were guests.

Mrs. Harry Townsley gave pleasurable entertainment to the Baptist Missionary Society, Wednesday afternoon, at her home on Washington avenue, assisted by Mrs. Howard McLean and Mrs. Moss.

Mrs. C. F. Ballard led the Devotionals and made a talk on the scripture lesson, "The Negro" was the afternoon's topic. Mrs. W. W. DeWees' excellent paper on "The Negro in the United States," was read by Mr. A. K. DeWees.

The hostesses served tempting refreshments during a very enjoyable social hour.

The splendid charity work of the Mothers' Circle can be more fully realized by a detailed resume of the practical things that it has done than by any number of complimentary adjectives.

To provide funds for the continuation of this work the Circle is putting on Pageant of June the tenth and eleventh, which will be a wonderfully beautiful entertainment as well as a benefit.

The following detailed account of what the Circle has done will be read with interest.

The Daughters and Sons of Hoyle visited Cedar Hurst Wednesday night for one of the jolliest of picnics. The sudden storm interfered with moon light and outing features but failed to dampen the high spirits of the merry party.

The Woman's Home Missionary Society and The Woman's Foreign Missionary Society of the Methodist Church at Good Hope are combined into a Missionary Department, and Wednesday marked the close of a spirited contest for membership. Forty-two new members were added.

The losing team with Mrs. Lora Diven, captain entertained the winning team, Mrs. A. S. Stenier, Captain with a supper at Wayne Hall in the evening. Nearly a hundred were in attendance each member taking a guest. The hostesses proved themselves very adept as entertainers and served a delicious menu.

In turn, the winning side presented a splendid program of readings, vocal and musical numbers, the main feature, a missionary exercise entitled "Voices of the Women of Heathen Lands." Eleven took part, Miss Violet Rodgers in the leading role, ably assisted by Mrs. Rachel Perry, Mrs. Louella Davis, Mrs. Rosa Murray, Mrs. Florence Boyer, Mrs. Ruth Rodgers, Mrs. Jennie Kisting, Mrs. Stella Rife, Misses Lorie King, Waveline Whitmer and Annabel Stenier. The different nations were represented, and made appeals to America impersonated by Miss Rodgers, who after a struggle with her conscience, Miss Whitmer, awakened to the missionary needs.

Miss Lorie King played two pretty piano numbers, and interesting reading were given by Hortense Holdren, Annabel Stenier, Kathryn Perry and Mr. C. R. Lyle.

Mrs. Rosa Murray and Mrs. Katherine King added a beautiful vocal duet.

## WELCOME SUNLIGHT REPRESENTATIVES

Messrs. Charles E. Lines and Charles H. Thompson, representatives of the Sunlight Creameries, were honored guests of the Dutch Treat Club at the regular Thursday noon luncheon. The affair had been planned with the one idea of making it "Sunlight Day" and the table decorations were the trademarks of the company while several articles served came from the big plant.

Frank Kennedy, head of the committee in charge, welcomed the Sunlight representatives and called upon them in turn for a short speech. In responses the hope was expressed that the compliment might one day be returned by the firm.

The two men were advised at the close that they had become Dutch Treaters and were active members of the organization.

## Timely Protections Assure Complete Summer Health

Summer has its dangers from illness as well as winter. Nature demands that you constantly fortify yourself if you will survive. Summer calls for greater use of antiseptics—Protections against infections or germ carrying insects, flies, bugs, etc. High temperature days and nights are conductors of infection. Poison ivy, poison oak and other poisonous herbs and trees infect most in hot weather.

Then too, if your work is confining watch your eating—eat sparingly and be sure your system is kept open. Beware of clogging of bowels or pores in the skin.

### WEATHER AND CROPS CONDITION SUMMARY

Washington, June 3.—The temperatures continued about normal and the rainfall light to moderate, except in some north-central districts where it was heavy. The weather was favorable to farm work and growth of vegetation but it was too cool in the far Northwest where frost did some damage to tender vegetation. Winter wheat made fair to good or excellent growth over the principal producing areas and its growth was mostly satisfactory elsewhere. Its condition is now excellent in the central Great Plains but continues poor in portions of the Ohio Valley. The weather was favorable to spring wheat which made very good to excellent growth, its condition now being mostly satisfactory. Rapid advance was made with corn planting in northern districts and this work is nearly completed in many sections; corn made very satisfactory growth in central and southern states. Rye, oats and barley continue to make satisfactory advance in nearly all sections and the weather conditions were generally favorable to potatoes, truck crops, gardens, pastures, ranges and meadows except in the far Northwest where it was too cool.

## DRAFT OF PLATFORM FINISHED

G. O. P. Now All Set For Convention — Mexican Plank Added. Prohibition, Soldier Bonus and League of Nations Planks Still Missing.

(By Associated Press)  
 Washington, June 2.—The tentative draft of the Republican national platform was given its finishing touches at conferences here today, and Senator Watson of Indiana, who has been in charge of the task, will leave for Chicago tomorrow to confer with prospective members of the convention resolutions committee.

The plank on Mexico was added to the draft today. It was written by Senator Fall of New Mexico. It is understood to follow in general the recommendations made by Senator Fall in his report to the Senate declaring that unless conditions in Mexico are improved the United States should intervene. All mention of prohibition is omitted. That issue, it was suggested, could be regarded as settled. The tentative draft contains a declaration, however, urging prompt ratification of the woman suffrage amendment. Another declaration still missing is that relating to the soldier bonus. No attempt was made to reach a final decision on a plank relating to the league of nations. This subject will go before the party chiefs at Chicago.

## SHOWERS FOR CORN AND WHEAT STATES

Columbus, O., June 3.—Since last Saturday morning, showers have occurred throughout the region except over an area embracing southern Wisconsin and southwestward over east-central and southern Iowa, northern Missouri, Kansas, and Oklahoma. There was great variation in the amounts but they were heavy to excessive in many places, especially in eastern Nebraska and northern Iowa and northward, and in southern Illinois and southeastward. The temperature has risen in eastern sections but a cool wave has spread eastward from Montana to the northern Plains States where frost is probable tonight. Cooler weather will gradually overspread the entire region during the next few days.

"Within the next year," he asserted, "air mail routes will be established between Shanghai and Peking and between Peking and Urga and the machines that will supply this service will carry both freight and passengers." The government of China last year contracted for the purchase of 100 airplanes from a British concern and 40 of these have been received. Others will be delivered through the summer. A commission for the relief of Germany and Austria has been organized in this city with representatives in all the states of Brazil.

The Correio Da Manhã calls attention to what it terms the humanitarian attitude of the United States in assisting the German and Austrian people without thought of race or politics and adds: "The philanthropic spirit of the North Americans has opened the way for the rest of free and generous America, and Brazil will take a leading part in this humanitarian work."

## COUNTY BOARDS TO WAGE WAR ON PROFITEERING

(By Associated Press)  
 Columbus, Ohio, June 3. — "Cooperation" will be the first thing sought by the federal fair price boards in Ohio, says State Fair Price Commissioner John Pfeiffer, who has open state headquarters here. Following organization of the fair price boards in each of the 88 counties, Commissioner Pfeiffer and his assistants will aid the county boards in rounding up profiteers. The county boards, the commissioner says will be composed of representatives from all walks of life. "It is my intention to appoint a wholesaler, a retailer, a professional man and at least one representative of labor on each county board," Commissioner Pfeiffer says. The county boards will have as many as eight members. Cases of alleged profiteering are to be reported to the county boards which will determine whether or not the price charged for the commodity is exorbitant. If the board decides the price is too high and that the margin of profit is excessive, the dealer will be warned. If the dealer fails to recognize the warning, the United States District Attorney, who is attorney for the fair price boards, will be notified and prosecution under the Lever act will be instituted immediately.

### GREAT EXHIBIT OF WAR RELICS TO BE ASSEMBLED

(By Associated Press)  
 London, (By Mail) — Signposts bearing the inscription "Hell-Fire Corner," "Piccadilly" and "Haig Avenue" erected by British troops just behind the front lines in France, are among the more than 10,000 exhibits being assembled at Crystal Palace, London, to form the Imperial War Museum. It will be opened by the King in June and will continue for four years. Exhibits innumerable have been gathered from every land where the war cast its trail to show the common effort of the Empire during the great conflict. Shortly after the signing of the armistice, the memorial signposts mentioned were found discarded as lumber. In addition to those bearing "street" names, which, to many of the men who knew them best, has meant so many direction posts to avenues of agony, there was found the rallying trench sign of Verdun with its "no thoroughfare." They were all rescued and are now to be preserved as relics of posterity. There will be on display the gun that fired the first British shot in the war—from the decks of destroyer Lance at the mine-layer Koenig Louise; the E battery gun that opened the military hostilities; the anti-aircraft pom-pom which, mounted at

Gresham College, fired the first shot ever directed at a foreign foe from London since the days of the Romans—the occasion being the Zeppelin raid in September, 1915—and scores of other entries which have equally vivid associations.

# DIRIGIBLE FLYING OVERHEAD CONTRASTS TRANSPORTATION OF TODAY WITH THAT SHOWN BY EMPIRE STATE'S FIRST TRAIN

The "Dewitt Clinton" train on flat cars with a dirigible flying above

A navy dirigible flying overhead brought into sharp contrast the most advanced methods of transportation of 1831 and today, as the famous old locomotive, the "Dewitt Clinton," and its train of stage coach cars was brought into New York city a few days ago to be exhibited in the east gallery of the New York Central terminal. The Dewitt Clinton, the first locomotive to run in New York state, was made at the West Point foundry and made its first trial trip from Albany to Schenectady, August 3, 1831, in one hour and forty-five minutes. Six weeks later, using wood for fuel, the same trip was made in thirty-eight minutes.

## MAKE APPEAL TO THE MEMBERS OF LOCAL Y. W. C. A.

About two weeks ago the membership committee of the Y. W. C. A. sent cards to all the members with suggestions of possible ways of service and also asking for suggestions from the members for special activities. Only a very limited number of

these cards have been returned. The membership committee is especially anxious to have as many as possible of them in the office by June 11. Some may have neglected them. Others may not know how to fill them out. Here are a few suggestions for these:

Posters are needed very often. They need not be elaborate. If you have any ideas for posters, if you can letter, if you can draw or paint or find clever pictures in magazines, if you can do any or all of these things, your help will be appreciated. If you can

not make posters, are you willing to help distribute printed posters or hand bills at special times?

There is also much need for help with recreation. Will you play the piano or other instrument for social or other gatherings? Can you read or sing or tell stories? Do you like to help plan parties? All of these things will be needed at various times. Would you lend your lawn or home at times for special gatherings? Have you an automobile? Would you be willing to lend it for some special occasions? Do you have flowers? They always help to brighten a room; and we want our room to be home like and pleasant at all times. A subscription to a good magazine for the reading table would be welcome. You probably have magazines that you do not care for after reading. If not too old, they would help out our reading table. There is an opportunity now to help out the summer camp by lending coats, cooking utensils and other things.

These are a few ways of helping. There are many other suggestions on the card. Perhaps you will think of some thing you can do that is not suggested there. If so write in what you can do, and make it specific. If you will teach a class, tell us what kind. If you will help with recreation tell us what you would rather do.

Another point—The Y. W. C. A. wants to know what you want. Think carefully about that. Is there some class you would like either now or later. What about a nature study class? Are you interested in stars, birds, trees, flowers? Do you want to study citizenship as it affects women—particularly the question of voting and party platforms? Is there any special kind of Bible study you want? Do you want a sewing class? What kind? What about cooking or home decoration, or home nursing, or millinery? Are those who employ maids interested in a class in general housework for them? Are the girls doing that work or expecting to do it interested in such a class? Are you interested in a needle class or a girls' chorus? Do you feel that there is some group of girls that the Y. W. C. A. is not serving? Do you have a suggestion of how we can serve them?

This card is your chance to say what you will do for the Association and what you want the Association to do in the community. If you want more suggestions, talk it over with the secretary; but bring or mail the card as soon as possible.

## SABINA CITIZENS FINANCE BALL CLUB

This week's Sabina Tribune tells the fact that Sabina is to be represented by a baseball team and that the company has been formed for the movement with Ross Allen manager and Billy Snider treasurer. Plans for the representative team materialized when enough money was contributed by business men and citizens to finance the movement.

The diamond is to be located on South Howard street just north of the old Clashmore park. It is announced that a regulation stand is to be erected and the game is to be played in real minor league style. Places are to be provided for parking automobiles so that the game may be viewed from the cars if the fans desire.

Strong semi-professional outfits are to be booked to go against the Sabina talent which will form the team.

# The Political Conventions

This year is certain to mark an epoch in the history of the nation. Party lines are to be reformed, party leadership established at both Chicago and San Francisco, to meet the changed conditions and to deal with the vital problems of the time.

Old political leaders are to battle with younger giants just entering the arena of American politics. The new and younger men representing the new demands will enter the struggle, confident of success. The older and more experienced politicians will struggle to maintain party power. New leaders will arise, old leaders will be retired.

History is in the making and all turn with hope and confidence to the great gatherings—one by the shores of Lake Michigan and the other by the Golden Gate.

DAYTON STAGING  
FAST BOXING BOUT

(Special To Herald).  
Dayton, Ohio, June 3.—The Miami Athletic Club of this city, by outbidding all the local clubs, as well as promoters in Detroit and Cincinnati, have landed the "Brown Downey-Tommy Robson" bout for Monday night June 14th. The contest will be 12 rounds for a referee's decision and will be staged at Highland Park.

Robson, who gave Harry Greb, the "Pittsburg flash" such a hard fight, pretty near knocking him out in the ninth round of their 12 round bout in this city recently is sure to make it a bad night for Downey. It is doubtful if the announcement of any match ever fought in this city has been the cause of as much comment among the fight fraternity; those who have seen both boys in action, predict a great fight, some picking Robson to stop the Columbus "Harp".

ROBBINS & MYERS  
BUY PLANT IN XENIA

The purchase of the plant of the Aetna Explosives Company in this city, formerly operated by that company as a fuse factory, by the Robbins & Myers Company of Springfield, which company has been operating it as a branch plant since last September, has been practically closed, assuring that the Robbins and Myers factory here will be permanent.

With the announcement of the purchase of the site and buildings, through the agent, John P. Bocklet of this city, the Robbins & Myers Company is also announcing an extension, enlargement and improvement program, that will insure at least 250 employees in the branch before the end of this summer, with assurance that the pay roll will reach many times this number as soon as the help can be taken care of.—Xenia Gazette.

FAILURE TAX  
FOR STUDENTS

(By Associated Press)  
Boston, June 3.—Massachusetts Institute of Technology has placed a tax on scholastic failures. Hereafter students who fail or show a deficiency in a study must pay \$5 for each shortcoming. The rule has aroused protest from the under graduates, who are supported by some members of the faculty.

Leonard M. Passano, professor of mathematics, taking the side of the students, wrote a formal communication to the executive committee in which he argued that professor and student are jointly involved in such failures. He suggested that instructors be fined with students for each failure in their classes, if the rule is to hold.

LEARNING HOW  
TO REDUCE COST  
OF FEEDING FAMILY

(By Associated Press)  
Austin, Texas, June 3.—Young women students in the home economics department at the University of Texas are learning how to cut the cost of feeding a family. At the beginning of the prime thing is to get a meal, but toward the finish of the course the young woman has also to turn out the finished product cheap.

The university expects young ex-

DIAMOND Tire users, we have to admit, are prejudiced.

Having experienced the superior service of Diamonds for years, they usually refuse to listen to a suggestion of a change.

"Why give up the old we KNOW for the new we DON'T KNOW?" they argue.

It's a hard argument to beat. It's easier to buy Diamond Tires and avoid all arguments.
